Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent software updates, go to <https://downloads.autonomy.com/productDownloads.jsp>.

To verify that you are using the most recent edition of a document, go to <https://softwaresupport.hpe.com/group/softwaresupport/search-result?doctype=online help>.

This site requires that you register for an HPE Passport and sign in. To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

Support

Visit the HPE Software Support Online web site at <https://softwaresupport.hpe.com>.

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Access product documentation
- Manage support contracts

- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HPE Passport user and sign in. Many also require a support contract.

To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

To find more information about access levels, go to <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

To check for recent software updates, go to <https://downloads.autonomy.com/productDownloads.jsp>.

Interoperability matrix

This document describes the third-party software that works with the components of Connected Backup 8.8.7. It also describes how Connected Backup complies with third-party software requirements.

Data Center

The following table lists the third-party software that works with the Data Center software.

Component	Specifications
Server virtualization	<p>Server virtualization software.</p> <p>Performance of VM configurations is similar to physical machines; however, it is not guaranteed.</p> <p>To use VMs for your deployment, adhere to the following guidelines:</p> <ul style="list-style-type: none"> • Configure each VM as you would a physical machine. <ul style="list-style-type: none"> The amount of hardware resources that you allocate to each VM instance must equal or exceed the minimum amount specified for a physical configuration. • Each data center server requires I/O channels dedicated at the physical level. Ensure that you use: <ul style="list-style-type: none"> ◦ Dedicated physical disk controller ◦ Separate physical disk volumes ◦ Dedicated memory ◦ Dedicated CPUs • While VMs allow you to share storage, to ensure database performance and data integrity, configure VMs for non-shared storage. <ul style="list-style-type: none"> Follow the storage recommendations for physical configurations, with one exception: you can follow your company standard for Web server configuration of Connected Web Services applications. • Existing data center disk volume configurations still apply. Separate volumes for: <ul style="list-style-type: none"> ◦ database .mdf files ◦ transaction log .ldf files ◦ Archives
Enterprise directory	LDAPv3
Anti-virus software	If you install anti-virus software on the Data Center server, do not let the antivirus software scan the Customer archive folders, the SQL databases (.mdf), or the SQL transaction logs (.ldf).

PC Agent

The following table lists the third-party software that works with the Connected Backup PC Agent software.

Component	Specifications
Mail client (Processed by Connected EmailOptimizer)	Any of the following applications: <ul style="list-style-type: none"> • Microsoft Outlook 2016 (32-bit and 64-bit) • Microsoft Outlook 2013 (32-bit and 64-bit) • Microsoft Outlook 2010 (32-bit and 64-bit) • Microsoft Outlook 2007, up to SP2 • Microsoft Outlook 2003 SP3 • IBM Lotus Notes/Domino 8.5.1 (32-bit only), 8.5.2 (32-bit only), 9.0, and 9.01

Mac Agent

The following table lists the third-party software that works with the Connected Backup Mac Agent software.

Component	Specifications
Mail client	<ul style="list-style-type: none"> • Microsoft Outlook 2011 • Microsoft Outlook 2016
