### Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent software updates, go to <https://softwaresupport.hpe.com/patches>.

To verify that you are using the most recent edition of a document, go to <https://softwaresupport.hpe.com/group/softwaresupport/search-result?doctype=online help>.

This site requires that you register for an HPE Passport and sign in. To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

## Support

Visit the HPE Software Support Online web site at <https://softwaresupport.hpe.com>.

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Access product documentation
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HPE Passport user and sign in. Many also require a support contract.

To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

To find more information about access levels, go to <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

# Introduction

This document describes the new features and resolved issues for HPE Connected Backup version 8.8.8.

- [New in this Release, on page 6](#)
- [Resolved Issues, on page 6](#)
- [Requirements, on page 6](#)
- [Install Notes, on page 6](#)
- [Documentation, on page 7](#)
- [Documentation Errata, on page 8](#)

## New in this Release

HPE Connected Backup version 8.8.8 release includes enhancements to the Support Center to protect against Cross-site request forgery (CSRF) vulnerabilities.

## Resolved Issues

This section lists the resolved issues in HPE Connected Backup version 8.8.8.

- **CB-39509.** Resolved an issue with the Media Agent to correctly retrieve the files.
- **CB-39349.** Resolved an issue with the DCMC to correctly function when the UNC pathname values are too long in the Path column of the Volumes table.
- **CB-38838 / CB-38583.** Resolved crash issues with Compactor.

## Requirements

HPE Connected Backup version 8.8.8 supports 64-bit standalone, mirrored, or clustered (mirrored or non-mirrored) Data Center configurations installed as one of the following:

- New installation
- Upgrade from Connected Backup 8.8.1, or later

You can upgrade the PC Agent from the following version of Connected Backup components:

- Connected Backup Agent 8.8.1, or later

You can upgrade the Mac Agent from the following version of Connected Backup components:

- For Mac OS X10.11 (El Capitan) - Connected Backup Agent 8.8.4, or later
- For macOS 10.12 (Sierra) - Connected Backup Agent 8.8.5.2, or later
- For macOS 10.13 (High Sierra) - Connected Backup Agent 8.8.7.2

For information about the system requirements, supported platforms, and software dependencies for Connected Backup 8.8.8, refer to the *Connected Backup 8.8.8 Requirements Matrix*.

## Install Notes

This topic provides information about Connected Backup 8.8.8 installation and upgrade for specific scenarios. If you host your own Connected Backup environment, also refer to *Connected Backup Installing the Data Center* or *Connected Backup Upgrading the Data Center* documentation for complete installation or upgrade information.

The following Connected Backup packages are available for this release:

- v8.8.8.0.bdc.english.zip

Contents:

- BDC folder

- v8.8.8.0.mgmtApi.zip

Contents:

- ManagementAPI folder
- Atmy.Cntd.ManagementConfig.dll
- ManagementAPIInstallManager.dll
- ManagementAPIServiceInstaller.exe
- ManagementServiceCmdLineInstaller.exe

## Upgrade Data Center to 8.8.8 version

The naming convention for mount point share names changed as of HPE Connected Backup version 8.8.7. If you're upgrading from a version prior to 8.8.7, and have manually configured the Mount Points on the Data Center, refer to the 8.8.7 release notes and follow the steps to ensure volume accessibility.

## Disable weak cipher

After installing the Support Center or AMWS web services application on a system, it is preferable to disable any weak and vulnerable cipher having a block size of 64-bits, such as Triple DES.

- *Connected Backup Agent Version Matrix*
- *Connected Backup Interoperability Matrix*
- *Connected Backup Requirements Matrix*
- *Connected Backup Application Localization Matrix*
- *Connected Backup Documentation Localization Matrix*

## Documentation Errata

This section describes the issue with the Search option available in PC Agent help shipped with the install package.

**Problem:** For PC Agent application help, you cannot open the Search result topics in the PC Agent application window.

**Workaround:** To view the Search result topic, right-click the topic link, and select **Open in new window**. The help topic opens in the default browser.
